

Site Plan

ImagineStiles

 Existing Education Bldg.

1. First grade room re-turned to original use as a staff resource room.
2. PK 3 classroom moved and space is connected to the art room.
3. PK 4 classroom is moved and the room is remodeled as a Spanish classroom.
4. PK 4 classroom is moved and First grade relocates to this location.

 Each puzzle piece denotes a major component of the Imagine project:

CAMPUS MASTER PLAN
NOT TO SCALE

As good stewards of what we have been given, it is our desire as a leadership team to continue the working relationships that were established with the architects, engineers, and general contractor during Phase One, 'Vision', of the ministry expansion at St. Michael. That phase was the addition of the Anderson/Eichler facility. In that project many people who were connected with the St. Michael ministry were utilized because they were inclined to use their expertise in a particular business to be of service to the ministry. Thus, costs were lowered without the project being delayed or diminished in quality.

The chart below shows a decision-making framework for the Imagine project. It attempts to establish the working relationships between project components for this phase, Imagine, of the ministry expansion.

[Note: This is meant to be a general visual explanation. All relationships and activities are not expressed in the chart.]

Decision Making for the Imagine Project
